Donna-Marie Donalds
donnamarie@cgxtraining.com

Donna-Marie Donalds' career has spanned more than 20 years. Starting as a CRA for the Thrombosis Research Institute in 2001, she has since worked with the likes of Johnson & Johnson, Covance and Sanofi-Aventis. She is currently the Managing Director of QC Monitoring Solutions while freelancing as a clinical research consultant. Donna-Marie is also Head of Training and the innovative course creator at CGX Training.

“The CTA course and tutors were excellent. I got a very good insight into clinical trials and the roles of a CTA. Thank you CGX, you helped me gain my first job in the industry.”

J.Barbot, Clinical Trial Assistant

ACE THAT INTERVIEW WITH THE GUIDANCE OF TRAINERS WHO HAVE DONE THE HIRING

- ✓ All courses are CPD accredited so you leave with a certification recognised within the industry.
- ✓ Receive training by qualified clinical trial professionals currently practising, so you get the latest information.
- ✓ Interactive, engaging training program with two-way conversations — you are a part of your learning!
- ✓ Receive real-world-scenario-based training and the documents, templates and plans you'll use on the job.
- ✓ Leave with a manual of all you have learnt during the course to help you tackle any hurdles on your way.
- ✓ Train anywhere, online and face-to-face. All sessions are live so you get to ask the experts any questions.

WHO WE WORK WITH

**UNIVERSITIES
& COLLEGES**

“We recruited CGX for a project delivered during STEM Week. The speaker's style was engaging and provoked questions about informed consent, ethics, and the clinical trial drug process. Students had many questions and this may open up a potential career for some of them.”

Sam Ellis Smith, Solo Tutorial Services

**CAREER
CHANGERS**

“I had doubts in myself, but I was reassured I have the transferable skills to transition into the clinical trials sector. It builds up your confidence when someone in the industry sees the potential in you and says you can do it! If I could work as a marketer, then I could do this too.”

Reema Singh, CTA Beginners Course

**GRADUATES
& STUDENTS**

“This course was what I have been searching for for some time! It was really hands-on with lots of activities and scenarios. I had no idea of the number of options available in this industry until now. I will definitely be pursuing a career in clinical research.”

M. Clovis, Graduate Student Chemistry
